SECTION I

INTRODUCTION

A. Creation of the Plainfield Avenue Corridor Improvement Authority and District

On December 18, 2006, the Township Board of the Charter Township of Plainfield adopted Ordinance No. 787, which created the Plainfield Avenue Corridor Improvement Authority (the "Authority"). Ordinance No. 787 is attached to this Plan as Exhibit A. The Authority was given all of the powers and duties prescribed for a Corridor Improvement Authority pursuant to Act 280 of the Public Acts of 2005, also known as the Corridor Improvement Authority Act.

On January 8, 2007, the Township Board approved the appointment of the Authority Board of Directors. On January 22, 2007, the Township Board approved Bylaws for the Authority, attached as Exhibit C to this Plan. On May ___, 2007, the Township Board adopted Ordinance No. ___ approving this Plan, a copy of which ordinance is attached as Exhibit D.

The intent of Act 280 is to provide a means for municipalities to address deteriorating commercial corridors that are located outside of traditional downtown areas. Those traditional downtown areas are often revitalized through the use of downtown development authorities under the provisions of Act 197 of the Public Acts of Michigan of 1975, as amended ("Act 197"). Like DDAs under Act 197, Act 280 authorizes the establishment of corridor improvement authorities and the use of tax increment financing to finance and encourage the revitalization of and economic growth within existing commercial corridors.

Act 280 specifically authorizes local units of government to establish one or more corridor improvement authorities to correct and prevent deterioration in business districts; to encourage historic preservation; to authorize the acquisition and disposal of interests in real and personal property; to authorize the creation and implementation of development plans and development areas in the districts; to promote the economic growth of the districts; to create a board and prescribe its powers and duties; to authorize the levy and collection of taxes; to authorize the issuance of bonds and other evidences of indebtedness; to authorize the use of tax increment financing; to prescribe the powers and duties of certain state officials; and to provide for rule promulgation.

The primary tool available to local governments to revitalize these long-established commercial corridors is tax increment financing. Through tax increment financing, a portion of the increase in the tax base resulting from the economic growth and development to facilities, structures or improvements within a development area is reinvested in the corridor and used for infrastructure improvements and facilities enhancement, thereby reinvigorating the development area and facilitating economic growth and development.

Act 280 seeks to accomplish its goals by providing local units of government with the necessary legal, monetary and organizational tools to eliminate property value deterioration and to promote economic growth through publicly initiated projects undertaken cooperatively with privately initiated projects.

B. History of the Plainfield Avenue Corridor and Development Plan Objectives

The Plainfield Avenue Corridor Improvement Authority Development District is described on Exhibit B and shown on the map attached as Exhibit E-1.

The substantial commercial development of this portion of Plainfield Avenue began in the early 1960s, although there was some commercial development beginning only a few years after World War II. What was formerly known as Helms Center, a light industrial use located where the Meijer store is now located, began about 1948. The Hilltop mobile home park was built in the late 1940s or early 1950s.

Originally, Plainfield Avenue was U.S. 131, the principal north/south route into and out of the northern part of Grand Rapids for many years. Northland Plaza, the large commercial development that still exists on the east side of Plainfield Avenue within the Development District, was built about 1961. Other early commercial uses included Arlan's Department Store and the Lazy T motel. The Lazy T motel, which is located on the west side of Plainfield Avenue, is still in operation.

The Plainfield Avenue Corridor tended to prosper throughout the 1960s and into the 70s, but beginning as early as the late 60s, other major commercial locations in the Grand Rapids area began to draw customers away from the Plainfield Avenue Corridor. For example, Eastbrook Mall at 28th Street and East Beltline Avenue was completed in 1967 and Woodland Mall, at the same intersection, opened for business about a year later. These developments led to additional significant commercial development along 28th Street, and customers that might otherwise have shopped in the Plainfield Avenue Corridor began to be drawn to these other portions of the area. Additionally, construction of new U.S. 131 through downtown Grand Rapids, and other major highways in the area, made travel across the metropolitan area more feasible.

During the rest of the 1970s and into the 1980s, other commercial areas in the northerly part of the metro area developed, most notably Alpine Avenue. These areas as well began to draw still more shoppers away from Plainfield Avenue and over time the declining commercial activity meant that commercial property owners became less financially able to restore, upgrade and expand their commercial buildings. Over time, the corridor further declined, and beginning in the 1990s, efforts began to be made to revitalize and improve the corridor.

The Authority intends to improve retail and commercial areas located within the Development District through the improvements described in Section I.D., below, to stimulate economic growth, encourage redevelopment and private investment in existing buildings and businesses, and improve both vehicular and pedestrian access to businesses located within the Development District. This Development Plan and the accompanying Tax Increment Financing Plan (collectively, the "Plan") identify improvement needs and consider how those needs will be addressed.

The appearance and accessibility of the Plainfield Avenue Corridor as shown on Exhibit E-1 is crucial to the economic vitality and growth of the business located within the Development District and the Township.

C. Land Use

1. Existing Uses

A map of the Development District showing existing streets, existing land uses, public land and undeveloped land is shown in Exhibit E-2. Residential, commercial and public land uses and facilities are included. The Future Land Use for the district is included in Exhibit E-3.

Most properties within the Development District are zoned Commercial (designated C-1, C-2, C-3, or C-4). Other zoning designations within the Development District include office (O), residential (R-1 and R-6) and planned unit development. Uses within the Development District in those zoning districts include retail sales, sit-down and fast food restaurants, service establishments, car dealerships and professional offices.

At the time of the adoption of this Development Plan, the only zoning change contemplated for redevelopment within the Development District is the rezoning of the Meijer property located on the northwest side of Plainfield Avenue between approximately Richton Avenue and Hilltop Avenue from C-4 Commercial to a planned unit development. The rezoning of the Meijer property will facilitate the redevelopment of that property for the construction of a new Meijer supercenter store and development of out lots on the property.

2. Proposed Zoning Changes or Changes in Street, Traffic Flow or Utilities

At the time of the adoption of this Plan, there are no plans to change the location, grade or traffic plan of any streets within the Development District. However, in accordance with Act 280, the Township and the Authority reserve the right to make such changes, if necessary, so as to accomplish the purposes set forth in Act 280 and this Plan, including improvements to intersections and streets to facilitate improved traffic flow and reduce vehicular and pedestrian conflicts, enhance the use of public transportation to, from and within the Development District, improve access to and facilities for parking, and increase facilities to encourage pedestrian and non-motorized access to and within the Development District.

3. Residential Uses and Number of Residents

Residential uses within the Development District consist of single-family residential homes and multi-family dwelling units in apartment or condominium buildings. At the time of the adoption of this Plan, it is estimated that there are approximately 120 dwellings within the Development District, with an estimated 280 persons residing within those dwellings within the Development District.

There is no plan to displace or relocate residents from the Development District as part of the Development Plan and as such , the Authority has not adopted a plan for establishing priority in the relocation of residents or costs associated with such relocation. If relocation is necessary during the term of this Plan, the Authority will amend the Plan to include those requirements set forth in Act 280, including the preparation of a Plan for compliance with Act 149 of the Public Acts of Michigan of 1911, as amended.

D. Description of Proposed Improvements

The following is a description of the general improvements the Authority plans to undertake, with respect to the Development District:

1. **Traffic Access Improvements.** Street widening and/or reconfiguration; replacement of curb and gutter, reconfiguration of curb cuts; construction of acceleration and deceleration lanes; construction of boulevards and other street improvements; traffic signal replacement and relocation, installation of additional traffic signals where needed; arrange for cross-access easements between commercial properties to facilitate travel of vehicles and pedestrians between properties without having to use the public street to gain access to nearby properties.

2. **Street Intersection Improvements.** Improvement of street intersections to enhance safety, traffic circulation and pedestrian use, including turning lanes, crosswalks, intersection signage and other improvements.

3. **Pedestrian Access Improvements.** Construction of new sidewalks, reconstruction of existing sidewalks; revision or relocation of pedestrian crossings to minimize conflicts between vehicles and pedestrians; other improvements to enhance pedestrian use, including access by pedestrians to and from the Development District. Acquisition, operation and maintenance of snow removal equipment to clear snow from sidewalks within the Development District to facilitate pedestrian access in winter months.

4. **Utility Improvements.** Removal of existing power poles and electric and telephone lines; relocation of existing electric, telephone and cable television lines underground; other utility improvements to enhance utility services and improve the overall appearance of the Development District.

5. **Streetscape Improvements and Maintenance.** Installation of new and replacement of existing landscaping; develop regular scheduling of maintenance of new and existing landscaping and other streetscape improvements; installation of street furniture, trash receptacles, decorative street lighting and directional signage.

6. **Parking Improvements.** Installation of new off-street parking lots and other parking facilities; redesign and reconstruction of existing parking facilities, including paving, curb and gutter, storm sewers, lighting, signage; improvement of landscaping in and around off-street parking areas, including design and construction of landscaped islands; arrangements for connecting driveways between off-street parking areas on adjacent properties. Development and implementing of a schedule for the maintenance of off-street parking areas, parking lot entrances and exists, parking lot signage and other measures to maintain the appearance and convenience of off-street parking areas.

7. **Storm Water Management.** Design and construction of storm sewers, detention and retention basins, storm water runoff areas and other means of handling and discharging storm water runoff; revision and improvement of existing storm water management facilities.

8. **Landscaping.** Installation of new tree, shrub and flower plantings and irrigation systems; removal and replacement of landscaping; add landscaped areas to portions of Development District not currently landscaped, such as entry points into the district.

9. **Site Acquisition and Redevelopment.** Acquisition of existing lands and buildings that are currently under utilized or abandoned; design and construction of infrastructure improvements necessary to serve such properties and buildings; other measures and improvements to facilitate redevelopment and/or resale of under utilized or abandoned properties and buildings.

10. **Entrances to Development District.** Design, installation, construction and maintenance of entrance areas and entrance points within the Development District, so as to identify the Plainfield Avenue Corridor and to direct and encourage vehicular and pedestrian traffic to and from land uses within the district. Additional signage may include director signs, for various businesses, identification of various segments of the corridor, lighting of such signage and landscaping associated with it; design and installation of other entry-point features to assist in identifying the corridor and to promote public awareness of the corridor as a destination for shopping and other commercial activity.

11. **Public Transportation Access Improvements.** Construction and/or improvement of new and existing facilities to bring shoppers to the Plainfield Avenue Corridor and to enable residents to travel to and from work within the corridor. Such transportation facilities could include among other things, new lighted and comfortable bus stop stands for bus system patrons. Additional improvements include: reconstruction and reconfiguration of approaches to bus stops to facilitate safe entry to and exit from buses at bus stops; enhancement of structures and bus stops to facilitate access to public transportation for persons with disabilities; and coordinated signage within the Development District to highlight public transportation access points and facilities.

12. **Storefront Architectural Enhancement.** Development and implementation of a program to review and study the architectural style and appearance of building façades within the Development District and to work toward the development and implementing of a comprehensive architectural style and building-façade appearance for existing and new buildings within the district, so as to promote and develop an aesthetically pleasing architectural design of structures in and along the corridor. Such efforts would also include the developing and implementing of schedules for maintaining building façades, entrances and building signage, including the removal of graffiti and other unsightly damage to building walls and other structures within the district.

13. **Uniform Advertising and Signage Standards.** Development and implementation of uniform standards for signage and other means of advertising and promoting the uses within the Development District, including among other things, the development and use of a recognizable logotype for the district.

14. **Development of Small Park Areas.** Design, construction and maintenance of small park areas, such as pocket parks, within the Development District to enhance the pedestrian experience, to interrupt the large extent of concrete and asphalt and to enhance the overall appearance of the Plainfield Avenue Corridor.

15. **Non-motorized Trails.** The development of plans for, and the design and construction of, non-motorized trails to and from the Plainfield Avenue Corridor, for pedestrian and other non-motorized use, such as bicycle trails. Acquire and maintain bike racks. Street-widening or other street improvements so as to accommodate cyclist traffic within street rights-of-way. Other measures for connecting non-motorized trails with commercial and public uses, such as pocket parks.

16. **Enhancement of Existing Public Facilities and Services.** Improvements of publicly owned facilities within the Development District which augment private commercial uses by encouraging vehicle or pedestrian traffic within and to and from the district; the providing of improved police, fire or emergency services; improvement of public utilities; improvement of bus services; the development of security services for public and private uses; the providing of services for the continues good appearance of the district, such as street sweeping, landscape maintenance and the like.

17. **Other Improvements and Services.** The planning for, design and implementing of other improvements and services in and for the district, to carry out and enhance the goals and purposes of the development plan.

E. Disposal, Conveyance or Acquisition of Interests in Real Property

At the time of the adoption of this Plan, the Authority does not propose to either: (a) acquire from or convey to the Township any real property located within the Development District; or (b) lease, sell or convey any property to private entities or individuals. In the event that the Authority determines that it is in the best interest of the Authority and/or the Township to dispose, convey or acquire interests in real property in the Development District in furtherance of the achievement of the purposes set forth in this Plan and Act 280, the Plan will be amended by the Authority in accordance with Act 280 and such amendment will set forth the means by which such property interests will be disposed of, conveyed or acquired and any bidding procedures to be used for the lease, purchase or sale of such property interests.

F. Development Cost Estimates and Financing

All operating and planning expenditures of the Authority and the Township, as well as all advances extended by or indebtedness incurred by the Township or other parties, are expected to be repaid from tax increment revenues. The costs of the Plan are also anticipated to be paid from tax increment revenues as received.

The Authority expects to finance these activities from any one or more of the following sources:

- Future tax increment revenues
- Interest on investments
- Donations received by the Authority
- Proceeds from State and Federal Grants
- Proceeds from any property building or facility that may be owned, leased, licensed, operated or sold by the Authority
- Special assessments as may be approved by the Township Board
- Proceeds of bonds issued by the Charter Township of Plainfield
- Proceeds of bonds issued by the Authority, including revenue bonds or tax increment bonds

The proceeds to be received from tax increment revenues in the Development District plus the availability of funds from other authorized sources will be sufficient to finance all activities and improvements to be carried out under this Plan.

G. *Schedule to Evaluate the Effectiveness of the Plan*

Annually and with the preparation of the Authority’s budget, the Authority Board shall review the Development Plan, and examine the projects undertaken in the current year and those projects planned for the next fiscal year to assess whether the Authority is making progress with respect to achieving the objectives of the Development Plan and Act 280. Further, the Authority Board shall establish and review priorities for major improvements to be undertaken within the next three years within the Development District.

Every five years, the Authority Board shall review the Development Plan, the Township’s Master Plan, updated property value and tax capture information within the Development District, and any changes within the Development District to evaluate the effectiveness of the Development Plan and consider any possible amendments to the Development Plan or the Development District necessary to further accomplish the objectives of the Development Plan and Act 280.

H. *Amendments to Plan*

In accordance with Act 280, the Authority reserves the right to amend this Plan to add new improvement projects, extend the duration of the Plan, or for other lawful purposes. Any amendments to the Plan shall be approved by the Authority and the Township Board in accordance with the requirements of Act 280.

SECTION II

**TAX INCREMENT FINANCING PLAN
FOR DEVELOPMENT DISTRICT**

Tax increment financing, under Act 280, is a funding technique which employs the increase in taxes on real and personal property within a specific development area to secure and pay the cost of public improvements or bonds issued by a municipality or Corridor Improvement Authority to finance the costs of an approved development plan, to pay the Authority’s costs of operation, and to finance portions of an approved development plan which do not involve the issuance of bonds.

A. *Tax Increment Financing Procedures*

The tax increment financing procedure as outlined in the Act requires the adoption by the Township by ordinance of a development plan and a tax increment financing plan. Following the adoption of that ordinance, the Township Treasurer and the County Treasurer are required by law to transmit to the Authority that portion of the tax levy of all taxing bodies paid each year of the “Captured Assessed Value,” defined in Act 280 as the amount in any one year by which the current assessed value of the development area, including the assessed value of the property for which specific taxes are paid in lieu of property taxes, exceeds the “Initial Assessed Value” of the Development District.

“Initial Assessed Value” is defined as the assessed value of all taxable property within the boundaries of the Development District at the time the ordinance establishing the tax increment financing plan is approved, as shown by the most recent assessment roll of the Township for which equalization has been completed at the time the ordinance is adopted; provided, however, that the

Initial Assessed Value of property subject to a specific tax is equal to the quotient of the specific tax paid divided by the ad valorem millage rate.

When the Authority determines that it is necessary for the purpose of Act 280, the Authority prepares and submits a tax increment financing plan to the Township Board. The plan must include a development plan as provided in Section 21 of the Act, a detailed explanation of the tax increment procedure, the maximum amount of bonded indebtedness to be incurred, the duration of the program, and shall be in compliance with Section 19 of the Act. The plan must contain a statement of the estimated impact of the tax increment financing on the assessed values of all taxing jurisdictions in which the Development District is located. The plan may provide for the use of part or all of the Captured Assessed Value, but the portion intended to be used by the Authority shall be clearly stated in the plan.

Approval of the tax increment financing plan must be obtained following the notice, hearing and disclosure provisions of Section 22 of the Act. If the development plan is a part of the tax increment financing plan, only one hearing and approval procedure is required for the two plans together.

Presented in Exhibit F-1 is a schedule showing the historical growth in State equalized value and taxable value of the properties in the Development District and the Initial Assessed Value of all real and personal property in the Development District as finally equalized in May, 2006.

B. Estimates of Captured Assessed Values and Tax Increment Revenues; Amount to be Captured

The schedules beginning in Exhibit G demonstrate the estimated dollar amounts of captured assessed values and tax increment revenues to be realized from projected increases in the assessed value during the next 20 years.

Increases in assessed values within a development area, which result in the generation of tax increment revenues, can result from any of the following:

1. Construction of new developments occurring after the date establishing the “initial assessed value.”
2. Construction of new rehabilitation, remodeling alterations, or additions occurring after the date establishing the “initial assessed value.”
3. Increases in property values which occur for any other reason.

C. Use of Tax Increment Revenue

Tax increment revenues transmitted to the Authority shall be deposited in a separate fund of the Authority (the “Project Fund”) and used as they accrue annually in the following manner and with the following order of priority:

First, to pay the administrative, auditing, legal and operating costs of the Authority and the Township pertaining to the Plan and the Development District,

including planning and promotion to the extent provided in the annual budget of the Authority.

Second, to repay amounts advanced by the Township for project costs, including costs for preliminary plans, projects, fees, and for other professional services.

Third, to pay, or to set aside in a reserve account for the purpose of paying when feasible, the cost of undertaking, completing and reimbursing the Township for any public improvements as set forth in the Plan, to the extent those costs are not financed from other sources (the "Project Reserve Fund").

Fourth, to pay the cost of any additional improvements to the Plan that are determined necessary by the Authority and approved by the Township Board in accordance with the Act.

In accordance with Act 280, and to the extent that the Authority and the Township deem it necessary and in the best interests of the Authority, the Development District, and the Township and its residents and property owners, the Authority may enter into tax sharing arrangements with affected taxing jurisdictions to share all or a portion of tax increment revenues on such terms as the Authority and the Township Board determine to be most equitable for the Authority, the Development District and the Township.

D. Indebtedness to be Incurred

Revenues to support these costs shall be derived from any of the following sources, or a combination of these sources:

1. The issuance of one or more series of revenue bonds by the Authority which may be supported by a limited tax pledge if authorized by resolution of the Township Board or, if authorized by the voters of the Township, the unlimited tax, full faith and credit of the Township.
2. General obligation bonds of the Township, subject to approval of Township electors.
3. Tax increment bonds which are secured by tax increment revenue generated by and received from property within the Development District, or other revenues of the Authority.
4. Funds borrowed from the Township at rates and terms to be agreed upon or as set forth elsewhere in the Development Plan and Tax Increment Financing Plan; and/or
5. Cash.

Tax collections expected to be generated by the captured assessed value of property within the Development District are expected to be adequate to provide for payment of principal and interest on bonds issued by the Authority or the Township, or funds borrowed from the Township.

The amounts of bonded indebtedness or indebtedness to be incurred by the Authority and/or the Township for all bond issues or loans, including payments of capitalized interest, principal and

required reserve, shall be determined by the Township Board, upon the recommendations of the Authority.

While the Authority intends to pay for many of the improvements and projects identified in this Development Plan and Tax Increment Financing Plan on a “pay as you go” basis utilizing the resources identified in Section F of the Development Plan and Section D of this Tax Increment Financing Plan, consistent with Act 280 and this Tax Increment Financing Plan, the Authority reserves the right to issue the types of bonds specified in Act 280 and this Plan, in a principal amount not to exceed that which is necessary to undertake and complete the improvements and projects described in the Development Plan.

As of the adoption of this Plan, the maximum estimated principal amount of bonded indebtedness which may be issued during the term of this Development Plan and Tax Increment Financing Plan is approximately \$3,000,000, including preliminary costs, project costs and financing expenses.

E. Duration of Program

The duration of this Tax Increment Finance Plan is 20 years.

F. Estimated Impact on all Taxing Jurisdictions

Adoption of this Tax Increment Financing Plan will initially result in the use of all revenues derived from increases in assessed value of the real and personal property of the Development District for purposes of the Development Plan. As soon as adequate increments have been generated to pay for the development projects, excess tax increment will be returned to the taxing jurisdictions.

Exhibits G-1, G-2 and G-3 demonstrate the current millage levied by each jurisdiction, the anticipated growth in assessed value and the resulting tax increment revenues to be generated during the life of the Plan, and the estimated fiscal and economic implications on taxing jurisdictions resulting from the implementation of the Plan and capture of millage by the Authority.

The Authority proposes to strengthen the Development District and arrest the current stagnation and deterioration in property values. This is to be accomplished by using the additional tax revenues generated in the Development District to make public improvements and induce private redevelopment.

Several taxing bodies currently receive property tax revenue from the property within the Development District. They will continue to receive tax revenues on the initial assessed value of this property throughout the duration of the Plan. When this plan is terminated, these taxing jurisdictions will receive property tax revenues from all taxable property located within the Development District, including new development and appreciation in value stimulated by the development projects and inflation.

Notice of any meeting of the Board shall be given at least two (2) days prior thereto by written notice, delivered personally or by facsimile or mailed to each member of the Board at his or her business address. Mailed notice shall be deemed to be delivered when deposited in the United States mail in a sealed envelope so addressed, with postage thereon prepaid. Any member of the Board may waive notice of any meeting either before or after the meeting. The presence of a member of the Board at any meeting shall constitute a waiver of notice of such meeting, except where a member of the Board attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any meeting of the Board need be specified in the notice or waiver of notice of such meeting, unless required by the Michigan Open Meetings Act.

Quorum. A majority of the members of the Board then in office constitutes a quorum for the transaction of business at any meeting of the Board, provided, that if less than a majority of the members are present at a meeting, a majority of the members present may adjourn the meeting from time to time without further notice. The vote of the majority of members present at a meeting at

which a quorum is present constitutes the action of the Board, unless the vote of a larger number is required by law, the Ordinance or these Bylaws.

Committees. The Board may, by resolution adopted by a majority of the members then in office, establish one or more committees, each committee to consist of one or more of the members of the Board. The Chair with the advice and consent of a majority of a quorum at any meeting, shall appoint the members of each committee so established. Each member appointed to a committee shall serve until replaced by action of the Chair with the advice and consent of a majority of a quorum of the Board.

CONTRACTS, LOANS, CHECKS AND DEPOSITS

Contracts. The Board may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Authority, and such authority may be general or confined to specific, instances.

Loans. No loan shall be contracted on behalf of the Authority and no evidences of indebtedness shall be issued in its name unless authorized by a resolution of the Board.

Checks, Drafts, etc. All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Authority, shall be signed by such officer or officers, agent or agents of the Authority and in such manner as shall from time to time be determined by resolution of the Board.

Execution of Bonds and Notes; Use of Facsimile Signatures. Bonds or notes issued by the Authority shall be executed in the name and on behalf of the Authority by such officer or officers of the Authority as may be designated for such purpose in the resolution authorizing the issuance of such bonds or notes. If authorized by such resolution, any officer designated therein (or all such officers) may execute such bonds or notes or cause them to be executed, with a facsimile signature in lieu of his or her manual signature, and may cause a facsimile of the corporate seal of the Authority to be imprinted thereon; provided that at least one signature required or permitted to be placed on such bonds or notes (which may include for this purpose, if authorized by such resolution, the signature of an authorized officer of any bank or trust company acting as bond registrar or trustee under an indenture of trust [or similar instrument] securing such bonds or notes which provides for the authentication of such bonds or notes by means of a certificate of the trustee appearing thereon) shall be manually subscribed. Any such facsimile signature and/or seal shall have the same force and effect as if the signature of such officer or officers of the Authority had been manually subscribed thereto and the corporate seal of the Authority had been impressed thereon.

INDEMNIFICATION

Indemnification, Judgment, Settlement, Etc. The Authority shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, or investigative by reason of the fact that he or she is or was a member of the Board or officer of the Authority, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Authority and with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the Authority and, with respect to any criminal action or proceeding, had reasonable cause to believe that his or her conduct was unlawful.

Reimbursement. To the extent that a member of the Board or officer of the Authority has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Section 1 of this Article or in defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Advancement of Expenses. Expenses incurred in defending a civil or criminal action, suit or proceeding described in Section 1 of this Article may be paid by the Authority in advance of the final disposition of such action, suit or proceeding as authorized in the manner provided in Section 2 upon receipt of an undertaking by or on behalf of the trustee or officer to repay such amount unless it shall ultimately be determined that he or she is entitled to be indemnified by the Authority.

Insurance. The Board may, in the exercise of its discretion, from time to time authorize by resolutions duly adopted, purchase and maintain insurance on behalf of any person who is or was a member of the Board or officer of the Authority, against any liability asserted against him or her and incurred by him or her in any such capacity or arising out of his or her status as such, whether or not the Authority would have power to indemnify him or her against such liability under Section 1 of this Article.

MISCELLANEOUS

Seal. The Board may provide a corporate seal which, if authorized, shall have inscribed thereon the name of the Authority.

AMENDMENTS

These Bylaws may be altered or amended or repealed by the affirmative vote of a majority of the members of the Board then in office at any regular or special meeting called for that purpose.

I HEREBY CERTIFY that the above Bylaws were approved by the Board of the Plainfield Avenue Corridor Improvement Authority at a special meeting held on January 16, 2007.
